Details:

Difficulty:

The trails vary from intermediate to high grade. In a few words: the trails are technically challenging, with some steep and exposed sections. There are some hiking sections with long descents. All participants must be fit to very fit to enjoy those trips! We often stop to enjoy the view, take some pictures, repair punctures etc...

The bike and equipment

For this trip, you will need a full suspension bike with 120mm travel fork and suspension (minimum). Disc brakes, fat tires... All participants should have their bike in **excellent working order** before the beginning of this trip. We will send you a list of the equipment required when you book the trip. *For Vallnord Bike Park, you can rent a DH/Free ride bike (approx. 50€)

What's included?

Fully certified MTB guide .
All shuttle to destination and back.(if required)

What's not included?

Lift ticket
Personal insurance.
The bike rental.
The lunches.

Group size:

4/7 person per trip (smaller or bigger group? Contact us)

*For small group, less than 4 persons, an extra fee will be apply

Climate:

In the Pyrénées, the weather is usually warm and dry, but it can change very fast (Storms) and the temperatures will drop dramatically. You should be prepared to those conditions. We recommend at least 3 layers to face all late spring and summer weather conditions.

Safety:

The trips take place in some remote regions, where it could be difficult to access by car. There is always a risk and hazard on the trail we ride. You have to ride within your limits and be safe any time as mountain bike is a dangerous sport.

Our guide, has a first aid kit and basic first aid training. If a serious injury is suspected, we will call the rescue team, they come usually by helicopter. The search and rescue is at cost of the participant. This is the reason why **Personal insurance is mandatory**.

For the safety of the group, the leader can modify any stage if he considers it necessary (weather or group level)
